

## Responder MINI IFAK

Series E10-7015

The Eleven 10® Responder MINI IFAK is designed to hold the essentials to care for a traumatic injury, in an updated form factor that resonates with our original PTAKs Med Kit with enhanced organization and additional features. It can be mounted vertically or horizontally to both MOLLE/PALS webbing with short Malice Clips (included) and belts utilizing the supplied Velcro® Brand One Wrap® Straps. The wear on the belt can be adjusted for ride height. The pouch has a Break Open design which exposes all of the contents when deployed for easy access. All contents are secured inside the pouch and are rapidly deployable utilizing a fixed mounting platform and Fidlok® releasable strap. The Responder Mini features an external tourniquet keeper for those that want all their medical gear in one place or quickly leverage a backup TQ when a primary is carried elsewhere.

Can be purchased as the pouch only or a fully stocked medical kit.

### DIMENSIONS:
